Your attention is respectfully requested to the following testimonials:

BALTIMORE, Feb. 8th, 1886.

For an efficient and reliable Decodrizer and Disince test at always ready for use, and not liable to any change, equally valuable in the sick room/and in the foul sink, it has in my opinion no equal.

Professor of Chemistry University of Maryland.

Dr. W. O. VAN BIBBER, who made the report upon "Disinfectants" to the Kational Sanitary and Quarantine Convention of 1899, says of this article:

"It is the best decodorant of which I have any knowledge. Ist. It evidently answers the putpose. 2d. It is comparatively chesp. It is a mixture of the best simple decodorizers known to actionee, and the experiments made with it prove the proportional combination to be a good one to effect the purpose intended."

For other distinguished testimonials see circular.
